

INTRODUCING

PinPoint®

a breakthrough skin marker
specifically designed for small field of view imaging in MRI

PinPoint...

Precise

Images on **2 to 3 slices** and assists technologists in communicating the **EXACT** area of interest.

Easy to Use

Simply peel and stick. **No more fumbling with tape or worrying about melting vitamin capsules.**

Unmistakable

Bright and **consistent imaging on every sequence** allows for unmistakable communication between patient, technologist and radiologist.

Eliminates Indentation

PinPoint lies on top of a self adhesive label, eliminating indentation caused by old methods of marking.

PinPoint®
