Terumo is the U.S. Distributor for SEBRA® Blood Collection and Processing Equipment

This includes tube sealers, blood shakers, mobile collection equipment and more.

Contact your Terumo Territory Manager or call 800.283.7866
to request a list of additional products and for further information.

TERUFLEX® and IMUFLEX® Blood Bags

All blood bag systems feature an XT150 primary container. Double systems have one 400mL satellite bag. TERUFLEX triple systems have one 400mL satellite bag and one XT-612® platelet storage bag. Quadruple systems have two 400mL satellite bags and one XT-612 platelet storage bag. Product features include:

- 16 gauge ultra-thinwall needle for donor comfort
- Kink resistant tubing
- CLIKTIP® effortless inline closure device
- Easy to open outlet port peel tabs
- Latex free
- Color coded blister packaging

Legend for Blood Bag Sampling Arms:

A6	IMUFLEX Blood Bags with Diversion Blood Sampling Arm®, DonorCare ® Needle Guard and pre-attached luer adapter and tube holder. Features an integral sampling pouch with pre-attached luer adapter and tube holder to collect blood for test samples from the donor prior to collecting the unit. These bags feature a DonorCare Needle Guard pre-attached.
A2	TERUFLEX and IMUFLEX Blood Bags with Diversion Blood Sampling Arm and DonorCare Needle Guard. Features an integral sampling pouch to collect blood for test samples from the donor prior to collecting the unit. These bags feature a DonorCare Needle Guard pre-attached.
A3	TERUFLEX Blood Bags with Blood Sampling Arm and DonorCare Needle Guard. The integral sampling arm system is easy to use for obtaining donor samples after the unit is collected. Also features the DonorCare Needle Guard pre-attached.
A4	TERUFLEX Blood Bags with Blood Sampling Arm. The integral sampling arm system is easy to use for obtaining donor samples after the unit is collected.
A	TERUFLEX Blood Bags with Standard Donor Tubing. Straight line tubing, without a sampling system.
