 **PROUD TO BE CANADIAN MADE** 

Since its inception in 1983 UltraRay® has continued to be an industry leader in the field of radiation protection. We manufacture Canadian made products using the latest technology while maintaining the highest safety standards. Our products are manufactured using the strictest quality control procedures in accordance with Health Canada Medical Devices Regulations. We are a Class 1 Certified manufacturer and distributor operating under our Medical Establishment License 2312.

Our distributor network of 50 sales representatives across Canada provide on-site services such as samples, measurement and needs analysis consultation to ensure that clients receive the products best suited to their needs. Client input is utilized in the ongoing improvement & development of our products.

All our products carry a 2 year Warranty and 100% satisfaction guarantee.

NOTE: WE CAN CUSTOM BUILD MOBILE BARRIERS FOR ALMOST ALL OF THE ABOVE PANES

MOBILE SHIELDS

Excellent for patient protection during diagnostic procedures such as erect chest and cervical spine. Includes a durable nylon covered 0.5mm shield. Height adjustable 36" – 60". Rolls on a sturdy star-leg aluminum base for extra stability and easy movement.

MSB-2 MOBILE SOFT BARRIER

ADJUSTABLE HEIGHT SHIELD

Designed to protect the patient against scattered radiation. Ideal for chest, skull, and spine radiography. Made of lead vinyl with .5mm lead protection and attractively covered on both sides.

26" (65cm) wide and adjustable with a minimum height of 38" and a maximum height of 58". Mounted on welded durable chrome frame and rolls easily on 4 casters.

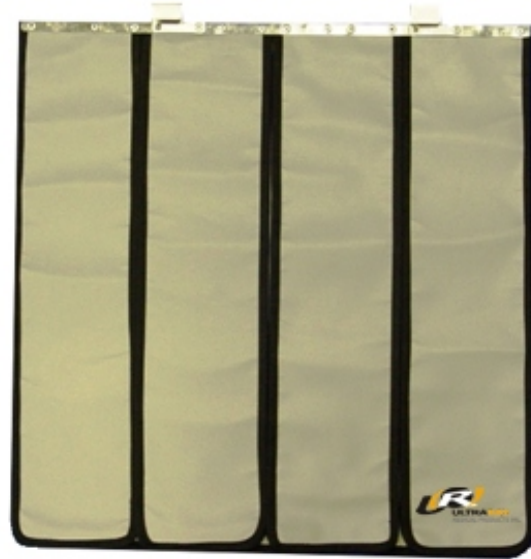

Specifications: 58" H (open) 38" H (closed) x 26" W x 18" D (at base)

MSB-1 ADJUSTABLE HEIGHT SHIELD

FLUOROSCOPY SCREENS / TABLE SHIELDS

UltraRay manufactures low cost replacement fluoroscopy screens and shields for most standard tables.

We can custom make all sizes and types with or without hardware at well below manufacturer prices. Send us your shields for recovery or contact us to discuss your custom needs.

CURTAINS

Curtains are ideal for areas where secondary or low level radiation is present. Optional hardware or grommets can be added.

- Doorway Curtains
- Room Divider Curtains
- 0.5mm or 1.0mm Lead Equivalency Available
- Custom Made to Your Needs

BLANKETS

Our lead blankets are made of lead wool or lead vinyl depending on the application. All blankets are custom made to your specifications.

- Box Blankets
- Equipment Blankets
- 0.5mm, 1.0mm, 1.5mm and 2.0mm LE
- Available in 30 Colours
