## Welch Allyn PC-Based Resting ECG

Improve accuracy, enable immediate access to patient diagnostic information and enhance your practice's efficiency with Welch Allyn's **PC-Based Resting ECG!**

Welch Allyn can help you tailor a solution that's perfect for your office workflow. You can now automatically transfer patient information and test data into most EHRs without redundant work steps, misidentified patients, transcription errors or delay. Clinicians spend less time documenting and more time with patients because we eliminate the need for manual data entry, copying, scanning and shredding ECG reports.

- From single computer or enterprise wide networks—with or without an EHR
- Preview live 4x3 reports on screen prior to printing
- Eliminate repeat ECGs
- Automatic ECG measurements speed physician review and interpretation
- Programmable report formats print on plain paper using an inkjet or laser printer. No need for expensive thermal paper. No more fading problems
- Overlay **previous ECGs** to spot differences
- Interpret and edit report on screen for patients down to 1 day old!
- Easily monitor patients with intermittent arrhythmias
- Enterprise wide access to test results from anywhere, anytime you can access a secure network
- Connect with your EHR and eliminate the need to sort through lengthy paper reports or interpret hard-to-read faxed copies of test results
- Upgradeable—leverage your investment by adding [stress](#), [spirometry](#) and/or [ABPM](#) modules to complete your cardiopulmonary suite
- 

Operating in a thin client environment? No problem. CardioPerfect resting ECG includes PerfectLink, our virtual channel SW that optimizes thin client networks.
