

Move forward with the leader in point-of-care carts

INTRODUCING THE NEXT GENERATION!

StyleView[®] Carts

Designed for Nurses.
Engineered for IT.

 More motion. Less effort. **Feel the difference.**

You asked. We listened. We delivered—a point-of-care cart that provides even more caregiver efficiency, patient safety and quality care. Ergotron, the proven leader in point-of-care computing, has refined the StyleView Cart. Built with the same unparalleled features of the original StyleView, the latest version lifts point-of-care computing to a whole new level.

1. **NEW!** Five-inch (13 cm), independent monitor height adjustment increases comfort and productivity for personalized viewing, including for those wearing progressive lenses. Rotates from portrait to landscape mode. Compatible with Tablet PCs (LCD carts only)
2. 20-inch (51 cm) height adjustment for comfortable data entry, sitting or standing
3. Constant Force (CF™) patented motion technology provides fluid, one-touch height adjustment
4. **NEW!** Secure, locking medication drawer controlled by electronic keypad—enhancing caregiver efficiency and patient safety. Removable cassette is configured with six bins (each with a clear lid and ID label)
5. Barcode scanner holder provides easy access to hand-held scanner
6. **NEW!** Wrists remain in a neutral position during data entry with negative-tilt keyboard tray—avoid repetitive-stress injuries and increase comfort and productivity
7. **NEW!** Expansive cable management storage area
8. **NEW!** Easier mousing and typing with rigid keyboard platform
9. **NEW!** Long-life power performance supported with an industry-leading two-year warranty* on power system. Five-year warranty on cart
10. **NEW!** Upgraded StyleLink™ software improves power system management tools, helping extend the life of the battery (reducing costs) by offering battery cycle count, email alerts and free software updates. Windows Vista™ compatible (powered carts only)
11. **NEW!** Easy-to-clean external 10-foot (3 m) coiled cord included with powered carts in North America and China. Powered carts elsewhere include a convenient retractable cord reel
12. Easy-to-use cart comes fully assembled

* Includes all electrical components except battery

Standard Cart Features Worksurface (except Dual Display Cart), basket and rear handle, scanner holder, cable management system, universal CPU holder (LCD models only), full-size keyboard tray with left/right mouse tray, gel wrist rest, mouse holder, height position lock, high-performance casters with dual wheels for carpet or hard floor use. Powered carts include 55Ah, 12VDC, Sealed Lead Acid (SLA), Absorbed Glass Mat (AGM), Deep Cycle, Valve Regulated type battery.

Smart Power using StyleLink Software for StyleView Carts

Reduce downtime
Maximize productivity
Reduce cost
Maximize ROI

EXTEND ASSET LIFE CYCLE

Free, downloadable software upgrades for ongoing battery-life optimization

Extends battery life by managing usage based on runtime performance

PROACTIVE POWER SYSTEM MANAGEMENT

Eliminate surprises through use of diagnostic tools, simplifying power system management and reducing time required to fix problems

Email alerts sent by each cart at different stages of battery usage facilitate proactive power system management

StyleLink is included with all powered carts and is Windows Vista compatible. Free online upgrades ensure you'll be ready for future hardware upgrades

REDUCE TOTAL COST OF OWNERSHIP

Reduce costs for maintenance; eliminate need for expensive onsite technical support by leveraging diagnostic capabilities. Simply email StyleLink's report to Ergotron Tech Support and they will help troubleshoot power system performance issues

The power system has a standard two-year warranty which leapfrogs over warranties offered with competitive carts. Ergotron's upgraded StyleLink software enhances power system management, helping extend battery life. For patient and caregiver safety, the cart and power system are UL and EN 60601-1 compliant. A programmable, auto-locking keypad medication drawer is included, making StyleView both a point-of-care cart and a medication-delivery system. StyleView bridges point-of-care computing and medication delivery, reducing healthcare costs and improving patient care.

Improve viewing comfort and enhance productivity through StyleView's expansive range of effortless height adjustment. Twenty inches (51 cm) of sit-to-stand motion is combined with an additional five inches (13 cm) of independent monitor height adjustment and 25° screen tilt, which benefits all users, including those who wear progressive lenses. The keyboard tray provides up to 12° of negative tilt—recommended by ergonomists for the proper typing position. This reduces the risk of repetitive stress injuries. An enclosed storage area makes it easy to manage cables.
