A Ensure a precise fit with Medline's Sized Knee Immobilizers

- Constructed of tricot-lined foam
- One medial, one lateral and three posterior stays are removable and malleable
- Contoured posterior stays fill in the area behind the knee
- 2½" (6.4 cm) wide foam strips line the interior side of the medial and lateral stays to reduce migration
- Alternating 1½" (3.8 cm) loop-lock straps for compression

Knee Immobilizers

A Deluxe Sized Knee Immobilizers combine rigid support with excellent fit

- Constructed of tricot-lined foam with cotton duck outer material for durability
- One medial and one lateral aluminum stays are beveled to reduce flexion
- One beveled and two straight aluminum posterior stays are contoured to support back of the knee
- Alternating 2" (5.1 cm) loop-lock straps for compression

B Tri-Panel Knee Immobilizer adjusts **B** to fit multiple sizes

- Constructed with pile foam for comfort and ease of application
- One medial, one lateral and three posterior aluminum stays for support
- Posterior stays are removable and malleable to achieve the desired level of immobilization
- Two moveable panels attach with a contact closure for easy and accurate fit
- 1 1/2" (3.8 cm) wide loop-lock closures alternate laterally for even compression

C Maintain stability while providing uniform compression with Medline's Compression Knee Immobilizer

- Features five 4" (10.2 cm) latex-free elastic straps with alternating hook closures for uniform compression
- One beveled and two straight aluminum posterior stays to reduce flexion
- Pile foam material helps reduce splint migration
- Surged edges for durability
- Beveled aluminum medial and lateral stays are moveable for an adjustable fit

D Beveled stays in the Deluxe Tri-Panel Knee Immobilizer provide rigid support

- Side panels are made of a tri-laminate material, tricot-lined with a canvas duck outer material for durability
- Contoured posterior panel keeps foam against the patient's leg to prevent migration
- Medial, lateral and posterior aluminum stays are beveled for a high level of rigidity and support
- 2" (5.1 cm) wide loop-lock closures alternate laterally for even compression

Knee Immobilizers

A Deluxe Foam Cut-Away Knee Immobilizer can be cut to the desired fit

- Made with trimmable pile foam for easy adjustments to the shape and size
- Beveled aluminum stays throughout for rigid support and immobilization
- Movable medial and lateral stay pockets can be placed at any position or angle
- Contoured posterior area helps prevent the splint from migrating
- Alternating 2" (5.1 cm) loop-lock straps provide consistent compression
- 4" (10.2 cm) patellar compression strap helps prevent swelling

Knee Supports

A Medline's Hinged Neoprene Knee Support offers medial and lateral support

- Made of four-way stretch, 1/8" (0.3 cm) neoprene that gives uniform compression
- Removable U-Buttress can be positioned in the superior or inferior position
- Medial and lateral heavy-duty hinges for a high level of stability
- Unique soft-seam construction is smooth to reduce irritation caused by conventional methods of seaming
- Two circumferential straps with loop lock closures help limit migration and control the patella
