Introducing our first Biodegradable Nitrile glove Biodegradable Nitrile Exam Gloves

CHEMO DRUG TESTED | TEXTURED FINGERTIPS | POWDER-FREE PURPLE

PRIMED Sustain™ nitrile gloves are specially formulated to attract microbes found in landfills to enhance the enzymatic biodegradation of the material. Sustain™ achieves 90% biodegradability in 490 days versus 0.8% in 626 days for standard nitrile formulations. Enjoy the same reliable performance and protection you expect from a nitrile glove while supporting environmental sustainability.

Lightweight Nitrile Technology Combines strength with tactile sensitivity, allowing intricate and precise movement.

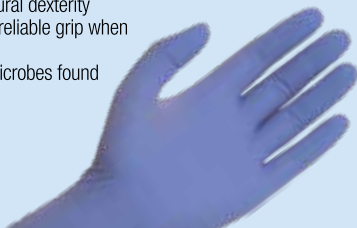

Flexible and Comfortable Fit Moves with the wearer to facilitate natural dexterity

Fully Micro-textured with Enhanced Fingertip Texturing Provides reliable grip when handling small instruments and objects.

Biodegradable Nitrile Formulation Specially formulated to attract microbes found in landfills to enhance the enzymatic biodegradation of the material.

Green Series 777 Integrated Wall System

The diagnostic tools you need to maximize productivity as you capture patient in-take and vital signs – within arm's reach.

With the Welch Allyn Green Series 777 Integrated Wall System, all your essential medical diagnostic tools are within reach. Configure this ophthalmoscope and otoscope wall unit, including a medial wall thermometer, for your needs – with exam tools and vital signs devices to capture blood pressure, temperature and SpO2. Upgrade to bigger, brighter views with our new Welch Allyn PanOptic Plus Ophthalmoscope and Welch Allyn MacroView Plus Otoscope. Whether you outfit one exam room or your entire facility, the Green Series 777 Integrated Wall System keeps your workflow in mind while helping you standardize and collect reliable patient data – in a consistent and energy efficient manner.

Welch Allyn ProBP

ENHANCE OUTCOMES ACROSS CARE AREAS WITH DIGITAL AUTOMATION

The Welch Allyn ProBP Digital Blood Pressure Device is designed with features to help capture accurate blood pressure readings. Capture results even in the presence of many common underlying circumstances.

- Three-Reading Average Mode can give a broader view of patient's true blood pressure compared to a single BP measurement.
- Manual Reading Mode lets you confirm abnormal readings throughout traditional auscultatory measurement.
- Irregular heartbeat detection gives you the data to decide whether additional testing is needed.
- Available in desk top, wall mount or with a mobile cart.

3M™ Steri-Strip™ Skin Closures (Reinforced)

The standard for wound closure and wound support.

Suggested Applications

- Reinforced Steri-Strip skin closures are used in the closure of lacerations, surgical incisions and following early suture/staple removal.
- Breathable
- Microporous material
- Hypoallergenic adhesive
- Provides wound support and assists in increasing the tensile strength of the wound*
- Provides better cosmetic outcome than sutures or staples*
- Permits early staple/suture removal*
- Reduces the risk of infection*

AAMI 2 Overhead Isolation Gown

Made from strong, fluid resistant and breathable SMS material, this gown is ideal for situations with potential for low or moderate levels of fluid exposure. The overhead neck closure, full back design and thumbloops with elastic cuffs provide dependable coverage against contaminants.

Soft and Breathable SMS

PRIMED SMS gowns are engineered for the ultimate balance of breathability and fluid resistance to keep clinicians protected from the outside and comfortable on the inside.

Overhead Neck Closure

Allows quick and easy donning and doffing, minimizing contact with harmful fluids.

Full Back Design

Provides enhanced coverage clinicians can depend on to prevent contact with contaminants.

Thumbloop with Elastic Cuff

Keeps gown sleeves in place under gloves to protect vulnerable skin from harmful substances and bacteria.
